

IT Procurement Services

Once Apex has helped you determine your hardware and software requirements, our procurement department will ensure that your orders are placed and delivered. It's seamless. No hassles. No problem.

Purchasing power at your fingertips.

Apex can procure any IT equipment, hardware, software and service. As a certified reseller of Cisco, Microsoft, Aruba Networks, Juniper Networks, 3Com, HP, IBM and other best-of-breed equipment, Apex is able to offer our clients a lowest price guarantee.

If Apex's prices on Cisco, Microsoft, Aruba and Juniper items are not lower than any competitor's, Apex will re-quote to ensure that you receive the lowest price.

Apex offers lease and purchase payment programs in addition to managed services with no down-payment. With these options, clients can align their budgets and expenditures with optimal delivery of IT products and services.

Apex also provides clients with account representatives for consistent IT procurement requests, fast turn-around on quotes and proposals, and the Apex lowest price guarantee.
